EVENT HIGHLIGHTS

The event had a good turnout, with spectators coming from different parts of the country to experience the real action. We had 321 participants with international athletes from DR Congo and registered athletes from Nigeria (who did not manage to attend) and over 709 spectators including parents, sponsors and the event officials.

The turnout exceeded our expectations and we hope to increase the numbers in our next event because we set a good precedence and high standards.

We were able to award all positions 1, 2 and 3 in all 18 categories as well as position 1-10 in the marathon for both men and women. Every position 1, 2 and 3 received a certificate of merit, medal, voucher and a gift hamper. All participants were presented with a certificate of participation.

We had an International Judge from Germany who was our chief judge and presided over the event. We had 14 judges locally drawn from different clubs across the country. This team of judges went through a vigorous preparation process prior to the event as we conducted the event according to world skate standards. This was a plus because the team learnt a lot and will use the knowledge and skills gained in future events and pass the same to others thereby building the sport.

RECOMMENDATIONS

Due to the set deadline for registration, a lot of athletes were locked out. For future events, participants are encouraged to register early in order to give the organizers enough time to plan properly.

Some individuals did not get information about the event and only learnt about it much later after the event. With regards to this, a mailing list should be created and data collected for official communication.

Some categories had a lot of participants and we had to do a lot of heats which was time consuming. Because of time constraints, and ensuring fairness, we recommend a two day event to accommodate this.

We should find a way to record the time stamps for every athlete to enable them track their progress.

We need a complain desk for handling complains to avoid stalling the progress of the event.

Only official media team with appropriate tags to be allowed in the track.

Problems Encountered

- **Age cheating** – We had three cases of athletes who provided unverified documents. We are making a follow up and in the case they are found to have cheated, they will be stripped off their achievements and awards and sanctioned from participation in future Sprint Skating Club events.
- **Corner Judging** – Foul play was witnessed in the corners and sensitization ought to be done for future events to ensure that the judges are very alert and any athlete who plays foul to be disqualified.
- **Equipment** – Some athletes were using equipment which gave them an advantage over the other athletes. To enable fair play we had to regulate the equipment each athlete used in their respective categories.

CONCLUSION

The event was a great success being one of its kind since 2015. Being our first event, we interacted with motivated athletes who are looking forward to excel in speed skating. We provided that platform that they so much needed to showcase their prowess to the international skating community. This was evident from the pictures and videos that were captured during the event and the aplaud they received after sharing them.

The international countries that showed interest in attending our event but were not able to due to unavaoidable circumstances were as follows;

1. Benin
2. Togo
3. Rwanda
4. Uganda
5. Senegal
6. Nigeria

Considering all factors, it was proposed to have our next (2nd) event on 19th – 20th August 2023 at Kasarani International Stadium skating track. We are looking forward to have on board all the sponsors we had and more to make the event much better and bigger.

Thank you all for making the event a success
